I hold a Master's Degree in Finance and Insurance and a Bachelor's Degree in Economics, both from University of Calabria. I am studying to become a qualified actuary in Italy. Currently, I work as Actuarial Consultant in Oliver Wyman on a variety of projects including life actuarial operations, risk management, internal model development, Shiny app maintenance and development, IFRS 17 strategic plan and forecast. I am really keen on data, programming and advanced analytics. I worked on data science projects, improving skills in programming languages such as R, Python and VBA.

Work Experience

Actuarial Analyst

○ General Reinsurance, Milan, Italy

February 2024 – Present

- Developing pricing models for life and health insurance products (CQ, CPI, term life) within the L&H Pricing team.
- Profit testing and experience monitoring across mortality, morbidity, and underwriting risks.
- Maintaining risk databases and applying advanced analytics (R, Python, SQL) to extract insights and automate processes.
- Building predictive models and presenting actuarial reports to internal and external stakeholders.

Actuarial Consultant

○ Oliver Wyman, Milan, Italy

June 2022 – January 2024

- Supporting life actuarial operation in product analysis, data migration and system integration.
- Supporting internal model development (Operational Risk) with R for a large Italian insurance group.
- Developing and maintaining R-based framework (Shiny) for KPIs production and monitoring.
- Supporting the preparation of IFRS 17 strategic plan and forecast with the development of VBA automated tools.

Life Reserving Actuary - Intern

○ Eurovita S.p.A., Milan, Italy

November 2021 – May 2022

- Technical and supplementary reserves monthly/quarterly computation (local GAAP/IAS).
- Monitoring and developing life insurance portfolios KPIs.
- Preparation of reporting forms required by IVASS (moduli di bilancio).

Actuarial Pricing - Intern

○ General Reinsurance, Milan, Italy

February 2021 – November 2021

- Monitoring L&H insurance portfolios by developing functions, automated scripts and data visualization tools with R in order to speed up the product pricing process.
- Analysing SDO (Schede di dimissioni ospedaliere) database to gain useful information in order to develop new products and improve existing ones.

Education

Master's Degree in Finance and Insurance

○ University of Calabria, Rende (CS)

September 2019 – October 2021

- Final vote: 110/110 cum laude.
- Thesis: "Machine Learning techniques in non-life insurance pricing". The aim of the thesis is to analyze the performance of some machine learning algorithms in the non-life pricing process and compare them with state-of-the-art models (GLM and GAM).
- Main skills acquired: Non-Life Insurance Mathematics, Risk Theory, Life Insurance Mathematics, Financial Econometrics, Financial Markets, Quantitative Finance. All the courses were taught in English.

Bachelor's Degree in Economics

- *University of Calabria, Rende (CS)* *September 2016 – July 2019*

- Final vote: 100/110.
- Main skills acquired: Mathematics, Financial Mathematics, Statistics, Microeconomics, Macroeconomics.

Competences and Skills

- **Programming Languages:**
 - R (proficient): packages, dashboards (shiny) and reports (Rmarkdown) development, historical series analysis, Monte Carlo methods, data manipulation and visualization, implementation of ARMA, VAR, ARCH, GARCH models.
 - Python (intermediate): data manipulation, visualization, and machine learning. Libraries used: pandas, numpy, matplotlib, scikit-learn.
 - SQL: data querying, aggregation, and database management.
- **Data & AI Tools:** Databricks (data engineering and ML pipelines), RAG and AI Systems (retrieval-augmented generation, LLM integration), Machine Learning (supervised/unsupervised methods, model evaluation).
- **Microsoft Office:** In-depth knowledge of Excel, VBA, PowerPoint and Word. Good knowledge of Access.
- **Soft Skills:** Organization and problem solving skills. Ability to work in a team and under pressure in order to meet tight deadlines.

Languages

- **Italian:** Native language.
- **English:** Fluent, Professional knowledge.

Other Info

- Driver License (tipo B).
